

## **Rocky Mountain CHMM Affiliate Membership Program**

The Rocky Mountain Chapter of the Academy of Certified Hazardous Materials Managers (ACHMM) is proud to announce a new affiliate membership program for individuals, government groups, private businesses and non-profit organizations. The affiliate program would allow membership to professionals or businesses with interest in hazardous materials management to belong to the chapter without completing the testing and certification process.

The Rocky Mountain Chapter of CHMMs believes that our organization, local government agencies, local businesses and non-profit groups can all benefit by becoming involved in the chapter's activities. The chapter provides multiple talks or tours annually on topics related to hazardous materials, emergency spill response, health and safety in the workplace and many other topics. We have 75 chapter members and are expanding. We have recently added web conference and teleconference capabilities to our chapter meetings to allow participation across Colorado and Utah.

Affiliate members would be welcome to come to chapter meetings and participate in chapter committees. We believe there are many organizations and professionals that have interest in the focus of the chapter, but are unable to become CHMMs due to cost or time constraints. We welcome participation by all those interested in hazardous materials management. There are a number of affiliate membership levels available. Each affiliate membership level is detailed in the table on the following page.

Your support and participation in the chapter are greatly appreciated. We are looking forward to working with you.
